PROFESSIONAL SUMMARY

4th-year Information Technology student with hands-on experience across full-stack development (React, Node.js, Django), UI/UX design, and cloud architecture (AWS-certified). Proficient in JavaScript, and Git-based collaboration, with working knowledge of relational and NoSQL databases (MySQL, MongoDB) and applied information security fundamentals. Adaptable across tech stacks and comfortable working in Agile team environments. Seeking a technical internship to apply and grow these skills.

SKILLS

Web & App Frameworks: ReactJS, Node.js, Express, Django, TailwindCSS

Scripting & Languages: JavaScript (Node.js), Python (Django)

Databases: PostgreSQL, MySQL, MongoDB,

Version Control & Workflow: Git, GitHub, Docker, Agile/SCRUM exposure through team project work

Design & Tools: Figma (UI/UX design), Canva, IntelliJ IDEA, VS Code, Replit, Gamma, HubSpot

AI-Assisted Development: Claude Code, Cursor, Windsurf, Lovable – for rapid prototyping, code review, and pair-programming workflows

Security Exposure: Information security fundamentals, Kali Linux Basics, TryHackMe (Pre Security)

Currently Expanding: Test Automation (Playwright), CI/CD fundamentals, Advanced AWS (Security/DevOps)

FEATURED PROJECTS

- [Ally – AI-Powered Legal Platform \(Capstone\)](#): Designed the complete UI in Figma and implemented it in React (Vite) as frontend/UI-UX developer, including a chat-first interface for AI-powered legal Q&A, chat interface between the lawyer and client, and role-based flows integrated with a Firebase backend – end-to-end frontend ownership on a multi-user, production-style platform. (Jan 2025 - Dec 2025)
- [Notes App – \(Web3 Notes Platform\)](#): Built full-stack features for a hybrid Web2/Web3 notes app (React, Node.js/Express, MongoDB) with Cardano blockchain-based permanence; improved backend rate-limiter reliability and built frontend editor components as part of a 5-person team using Git-based collaboration. (Dec 2025)
- [CampusXperience](#) – **Campus Event Platform**: Built the complete frontend, and contributed as part of 5-person team to a full-stack web app for campus event discovery, reservation, ticketing, and reminders – React (Vite), Spring Boot (Java) backend, Git/GitHub collaboration. (May 2025 – Dec 2025)
- [CrediGo](#) – **System Integration Project**: Independently designed and built the entire web app – frontend UI and backend API integration – for a 3-person System Integration and Architecture course project, owning full-stack development end-to-end from planning through delivery. (Apr 2025 – May 2025).

EDUCATION

Bachelor of Science in Information Technology | [Cebu Institute of Technology – University](#) 2022-Present

CERTIFICATIONS & AWARDS

- [AWS Academy Graduate – Cloud Architecting \(Training Badge\)](#) – Dec 2025
- [AWS Academy Graduate – Cloud Foundations \(Training Badge\)](#) – Oct 2025
